Technology Access at Home Survey

Dear Parents and Carers,

Lake Illawarra South Public School is undertaking an assessment of our current position in being able to deliver learning online. To assist with this, a brief survey has been developed to identify those families which may need additional support.

It is vital that **ALL** families complete the survey. Please complete the survey regarding *Learning from Home* technology access to assist staff in the ongoing preparation and provision of student work. Only **one** response per family is required.

Survey Link: <https://www.surveymonkey.com/r/SX7RXT5>

Please complete this survey by **6pm today** (Friday 27th March). Paper copies of the survey are available from the school should you not have Internet access.

You will be advised by telephone when devices are available for collection.

Thank you for your ongoing understanding, support and cooperation in these unprecedented circumstances.

Karen Simula
Principal
